10:00 Welcome and Introduction

North York Moors, Coast and Hills LEADER programme. Mike Horrocks is the Programme Manager and Amy Thomas is the Programme Officer.

10:20: The LEADER Sustainable Community Halls Project

This project has been managed by RAY and TVRCC. Peter Bryan tells the story so far.

10:40: Village Hall Success

Hear the stories of Hovingham Village Hall and Saltburn Methodist Church Hall

11:10 Coffee

11:30 Hallmark is good for your health: Peter Bryan

Hallmark recognises and rewards halls for good standards of management.

11:45 Using networks to ensure sustainable village halls

Networks encourage halls to work together and learn from each other.

12:15 Lunch and marketplace

Carry on networking with other halls, or get advice from the experts

PTO

Sustainable Community Halls

Village Halls Conference 2011

13:00 Time with the Experts

Choose two of the following sessions:

1. Renewable Energies: Susan McCartney

Learn about Renewable Energies and what they could mean for your hall. Susan will explain about the Feed-in Tariffs payments that can be generated as an income to your community, as well as reducing the hall's electricity costs. She will also share her 'top ten tips' when looking at energy saving and renewable energy options.

2. Look after your money: Peter Bryan

The purpose of this session is to help safeguard trustees from financial risk by learning to share the decision making in a simple but orderly framework. It aims to give committee members confidence in handling money, transparency in the annual accounts, reduction of financial risk and the tools to do the job efficiently.

3. Green Community Buildings: Charlotte Harrison

Key aspects involved in a green refurbishment project and how to develop a new low-energy building or extension. This will be done through a series of real life examples of community projects and will include:

Design and planning tips

Heating/ventilation strategies

Thermal performance/Insulation

Renewable energy

Water conservation

Sustainable materials

14:00 Thanks / evaluation

14:15 CLOSE
